

LIFEPOWR SUN20C

**Become completely independent from
the grid and mobilize your entire life!**

Modular Concept

- The SUN20C is designed to be a flexible power solution that can easily scale its power output by connecting multiple panels.

Smart Controller/ Multiple outputs

Flexible Solar Panels

Handmade Qualitative Design

Create your own Renewable Energy

- Generate renewable energy when catching sunlight.
- Store it into a battery pack such as the LIFEPOWR A2L for later usage, or use directly to recharge your phone, tablet, lamp or laptop at night or the next day, anytime you'd like!

SUN20C

Stand on the back

Dimensions	290mm x 280mm x 30mm (Folded)
Weight	650g
Output	Integrated Smart Controller with 3 outputs: [USB-A] Quick Charge 3.0 5V2A/9V2A/12V1.5A [USB-C] Power Delivery 5V3A/9V2A/12V1.5A/ 15V1.3A/20V0.9A [Barrel plug DC5521] With selectable voltages: 12V1.5A/15V1.3A/20V0.9A Power: 24Wp <i>*Chain-able to increase power output</i>
Cell Type	SunPower Cells +22% Efficiency Semi-Flexible High Durability
Material	Waterproof Oxford Fabric
Contents	SUN20C DC Cable (10 Connector tips for common devices) Manual/Guide
SKU	LPDS20
EAN	5430000151351
Certificate	Product is compliant to CE, FCC and RoHS
